## Summary

I'm Sakshi Bisen, a dedicated Frontend Developer with 2+ years of experience building clean, modern, and responsive web interfaces. I recently completed a comprehensive Full Stack Development, DSA, Aptitude Reasoning program to strengthen my technical foundation and grow into a well-rounded engineer. I'm self-motivated, detail-oriented, and passionate about creating user-friendly digital experiences that blend logic with thoughtful design..

Additionally, I love working in collaborative environments, exploring new technologies, and continuously improving my development skills.

## Education

**Barkatullah University** — **2023 – Present**
*Bachelor of Science (B.Sc.) in Mathematics* — *Bhopal, Madhya Pradesh*

## Experience

**NexG** — **Jan 2023 – Feb 2025**
*Frontend Developer* — *Bhopal, India*

- Developed responsive web apps using Next.js, React.js, and Tailwind CSS.
- Implemented API integrations, dynamic routing, and animations using Framer Motion and GSAP.
- Built accessible UI components and reusable layouts for multiple projects.
- Debugged and optimized applications for better performance and user experience.
- Passionate about crafting intuitive digital experiences that are accessible, responsive, and visually polished across all devices

## Projects

**E-Commerce Website** (Live Demo) — Next.js, Tailwind CSS, famer motion

- Built dynamic shopping features including filters, wishlist, and an interactive, user-friendly UI.
- Added advanced product search and category-based sorting for enhanced browsing and usability.
- Used SSR (Server-Side Rendering) to boost website performance and improve SEO visibility.
- Integrated a secure test payment gateway and ensured a fully responsive design across all devices.
- Implemented clean, reusable components and optimized UI flows to deliver a smooth shopping experience.

**ChatGPT Clone** (Live Demo) — React, sokect.io Express.js, REST API

- Developed a full-stack AI chat application with backend deployed on Render.
- Added message history storage and API error-handling.
- Designed a clean, minimal, fully responsive interface.
- Designed a clean, minimal, and responsive interface supporting real-time messages.
- Implemented authentication, authorization, and scalable backend solutions. .

## Technical Skills

**Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript

**Frontend:** React.js, Next.js, Tailwind CSS, Framer Motion, GSAP

**Backend:** Node.js, Express.js, REST APIs, MongoDB

**Tools:** Git, GitHub, VS Code, Postman, Render, Vercel

## Certificates

- Completed a comprehensive Full Stack Web Development Program covering Frontend, Backend, DSA, Aptitude Reasoning, and DevOps (CI/CD, Docker, Kubernetes) - Sheryians Coding School, 2025.

- Earned a certification in AI Prompt Engineering Generation, demonstrating expertise in LLM workflows, prompt structuring, and applied AI development - Outskill, 2024.

- Achieved Hackathon Participation Certification, awarded for contributing to a national coding creativity event held by Sheryians Coding School - August 2025.
